Ancient Mediæval & Modern Coins, Medals & Tokens,

838 Broadway, New York.

DECEMBER,

1883.

PREFACE.

“Can you not read it?
Is it not fair writ?”

KING JOHN, *Act IV., Scene I.*

“OF the making of many books there is no end,” saith the prophet.

The prophet was right; and although his remark had no reference to the science of numismatics, it is, at the present day, as applicable to that subject as any other.

But while there are books and books treating of every branch of this pleasing study, those published in the English language, unfortunately for the American reader, bear, as to number, but an insignificant relation to the whole.

At first glance this would seem not only a great misfortune, but an almost insurmountable obstacle to the usefulness of these works to American collectors.

Such is, however, not the case. They may become, when properly handled, of the *highest* use.

They contain in themselves a vast fund of numismatic information.

In Latin, full and exhaustive descriptions of ancient coins. In German, accounts prepared with that accuracy and untiring attention to minute detail that none but a German can give, of crowns, thalers, bracteates, coins of states, kingdoms, cities and towns of Central Europe, as well as many useful catalogues of large and valuable collections, the property of great museums, kings and princes, which contain specimens forever beyond the reach of the American collector, the knowledge of which can only be obtained from their carefully compiled pages.

The French, Spanish and Italian languages chronicle their specialties also, which are of equal interest in their own peculiar way.

And is the American coin collector to be deprived of all this, simply because he cannot read the languages in which it is written?

Not at all; it is “plain writ,” and with care can afford an inexhaustible supply of numismatic learning, even though not one word of the text can be understood.

The reasons are as follows:

1st. The inscriptions always occur in the books exactly as they are found upon the coins themselves.

2d. The names of kings and princes under whose reign

the coins were struck, are, as a rule, recorded in Latin, or if in the special language of the book, being as they are, derived from the Latin, or put in the same form in which they occur upon the coins, they are readily understood.

3d. The names of countries, cities and towns appear, as a rule, in the form in which they are found upon the maps, and are, or ought to be familiar to all collectors. Dates, of course, are always plain, and with the aid of an encyclopedia or dictionary of dates, are an infallible guide to the proper attribution of coins.

Last, but not least, these books are almost always accompanied by plates illustrating with perfect accuracy the coins themselves, and rendering classification and proper attribution a matter of ease.

Do we need any more than this ?

To be sure, we would be pleased to know, like old Constable Hook, "what it is all about," and that very desire to know what is concealed in the text may serve to urge some of our more ambitious collectors on to acquire a knowledge of foreign languages, which they otherwise might never attain ; but no more is necessary to render the full understanding of all that is on the coin itself wholly within the comprehension of any intelligent American numismatist, even though he may be utterly ignorant of all save his mother tongue.

Such as would grow wise in their hobby must read and learn.

They must tread the paths and acquire the knowledge of those who preceded them. This is essential, and can only be done by a careful study of numismatic literature.

There are hundreds of collectors in this country to-day who, were they to study their own cabinets with the aid of a well-selected numismatic library, or even with such assistance as could be afforded by a few books bearing on their own special hobbies, would be astonished to find the treasures they already possessed, which they had long "entertained as angels unawares."

The annexed catalogue contains the largest line of numismatic books ever before offered for sale at fixed prices in this country.

They are described with great care, and to avoid any possible misunderstanding in the minds of those unfamiliar with foreign languages, the special language in which each is written is plainly indicated.

LYMAN H. LOW.

These Prices include Postage or Express.

- 1 **Ackerman, J. Y.** Tradesman's Tokens current in London and its vicinity between the years 1648 and 1672. Contains a description of 2461 pieces. 4to, extra copy, wide margin. London, 1849. 4.00

- 38 **Laskey, Capt. J. C.** A description of Medals struck at the National Medal Mint by the order of Napoleon Bonapart. 239 pages, describing 141 Medals, with Portrait. Boards, large 8vo; in French. London, 1818. 1.50
- 39 **Lawrence, Richard H.** Medals by Giovanni Cavino the Paduan. 30 pages, describing 135 Modern imitations of Ancient Roman large Brass Coins, and Medallions. Paper, 8vo. New York, 1883. 1.00
- 40 ——— Catalogue of the Numismatic books contained in the library of the American Numismatic and Archaeological Society, with a subject index to the important articles in the American Journal of Numismatics and other periodicals, up to the end of the year 1882. 31 pages, paper, folio. 1.00
- 41 **Le Roux, Dr. Jos.** Numismatic Atlas for Canada. 225 cuts of Canadian Coins with supplement containing 8 additional cuts. Text in English and French. Heavy paper, 8vo. Montreal, 1883. 2.00
- 42 ——— Same. Ordinary paper. 1.50

- 43 **Lilienthal, Mich.** Thaler Cabinet. A description of 1535 Thalers. 450 pages full vellum. Small, 8vo. 1.25
- 44 **Maris, Dr. Edward.** The Coins of New Jersey. 17 pages Double plate representing all varieties and their muling. Heavy paper, large folio. Phila. 1881. 4.15
- 45 ——— Same. Ordinary paper. 3.65
- 46 ——— Same. Contains the plate alone. 1.50
- 47 **Marvin, Wm. T. R.** The Medals of the Masonic Fraternity, described and illustrated. Parts I., II., III., IV. 2 vols. 329 pages, paper, small 4to. Boston, 1880. 10.30
- 48 ——— The Carrara Medals. 8 pages, 1 plate, paper, folio, privately printed. Boston, 1880. .75
- 49 **Mathews, Geo. D.** Coinages of the world. 305 pages, filled with cuts representing nearly all classes of coin. Cloth, 8vo. New York, 1876. 2.50
- 50 **Merry, Walter.** Remarks on the Coinage of England with Appendix upon the Ancient Roman Coinage. 108 pages, $\frac{1}{2}$ roan, 8vo. Nottingham, 1799. 1.25
- 51 **Michels, Ivan C., Ph.D. M.A.** Current Gold and Silver Coins of all Nations. 147 pages. 1749 coins illustrated. Cloth, gilt, royal 4to. 5th Edition revised and enlarged. Phila. 1883. 5.00
- 52 **Miller, Mathew T.** The coins of the world. 74 pages, and 12 colored plates, together with many valuable tables etc. half roan, 8vo. Phil. 1849. 1.25
- 53 **Orville, Isaac Phil. d^r.** Sicula, quibus Siciliae veteris rudera, additis antiquitatum tabulis illustrantur. Eddidit et Commentarium ad Numismata Sicula. A description of Sicilian coins and Antiquities. 675 pages. 20 plates, full calf. Folio, in Latin. This is a beautiful work, and fully illustrates and describes the coins of this interesting Island from the earliest times down to the date of its publication. Amsterdam, 1764. 4.00
- 54 **Pfister, J. G.** Stray Leaves from the Journal of a Traveler in Search of Ancient Coins. 136 pages, paper, 8vo. Presentation copy, containing the autograph of the author (who was connected with the British Museum) upon the title-page. London, 1857. 1.00
- 55 **Pinkerton, John.** Essay on Medals, or an Introduction to the Knowledge of Ancient and Modern Coins and Medals, especially those of Greece, Rome and Britain. 2 vols., containing 5 plates, 8vo, backs somewhat damaged. Probably no English numismatic work has been more extensively read and quoted than this. It was for years the standard on its subject, and time has destroyed but little of its usefulness. London, 1784. 2.00
- 56 **Prime, W. C.** Coins, Medals and Seals, Ancient and Modern. 114 plates, illustrating prominent ancient and modern coins. Cloth, small 4to. This work contains a fund of information for beginners upon all branches of numismatics. It is out of print, and has of late years become quite scarce. New York, 1864. 3.75
- 57 **Reiske, Jacob.** Briefe uber das Arabische Munzwesen. (Letters on the Character of Arabic Coins.) The Arabic inscriptions are translated into German. 4 parts in one vol., boards, small 8vo. Leipzig, 1781. 1.00

- 58 **Rivadeneira, D. Alejandro.** Indicador de las Medallas de Proclamaeion de los Reyes de España, a partir del Reinado de Don Filipe II. hasta el de Don Alfonso XII. (Indicator of the Proclamation Pieces of the Kings of Spain, commencing at the Reign of Philip II. and carrying it down to that of Alfonso XII.) 29 pages, describing 626 pieces, paper, 4to; in Spanish. This little work is the only one of its class, and is excellently arranged and very complete. Madrid, 1882. .75
- 59 **Schualbach, C.** Die Neuesten Deutschen Thaler, Doppelthaler und Doppelgulden. (On the German Thaler, Double Thaler and Double Guilder.) 39 pages and 3 beautiful plates, 4to; in German. Leipzig, 1883. 1.50

Hawkins, Keeper of Coins and Antiquities in the British Museum. Revised and enlarged R. Ll. Kenyon, Esq. 55 plates, containing figures of about 650 Coins, by F. W. Fairholt and F. J. Lees. $\frac{1}{2}$ morocco, 8vo. London, 1876. 12.00
- 87 **Head, B. V.** Guide to the Select Greek and Roman Coins exhibited in Electrotype 8vo. London, 1880. .20
- 88 ——— *Percy Gardner and R. S. Poole.* Catalogue of the Greek Coins in the British Museum. This work is divided into seven parts, each complete in itself as to its subject, and bears no further relation to the remaining volumes of the series than that of being one of the set. The metal of each coin is stated and its size in inches and tenths. The weight is given in English grains of all gold and silver coins, and of all copper coins of known denominations. Tables for converting grains into French grammes and inches into millimetres, as well as into the measure of Mionnet's scale, are placed at the end. Vol. I. Italy. Many hundred woodcuts. 8vo, cloth. London, 1873. 8.35
- 89 ——— Vol. II. Sicily; full of woodcuts. 8vo, cloth. London, 1876. 7.00
- 90 ——— Vol. III. The Tauric, Chersonese, Samatia, Moesia, Thrace, etc.; numerous woodcuts. 8vo, cloth. London, 1877. 7.00
- 91 ——— Vol. IV. The Seleucid Kings of Syria. 28 plates, 8vo, cloth. London, 1878. 3.50
- 92 ——— Vol. V. Macedonia, etc. Map and woodcuts. 8vo, cloth. 1879. 8.35
- 93 ——— Vol. VI. Thessaly and Ætolia. 32 plates, 8vo, cloth. London, 1883. 5.00
- 94 ——— Vol. VII. The Ptolemies, Kings of Egypt. 32 plates, 8vo, cloth. London, 1883. 5.00
- 95 **Heiss Aloise.** Description Générale des Monnaies des Rois Wisigoths d'Espagne (General Description of the Coins of the Visigoth Kings of Spain). Royal 4to, 13 plates and woodcuts; in French. Paris, 1872. 15.00
- 96 ——— Descripcion de las Monedas Hispano-Christianas (Description of the Hispano-Christian Coins). Vol. II. and III. has plates; 71 to 203 inclusive. 4to, unbound; in Spanish. 15.00
- 97 **Kenyon, R. Ll.** History of the Gold Coinage of England. This work forms a desirable companion to Hawkins' Silver Coins of England, as its author was the editor of the second edition of the latter work, with which it is uniform. In 1 vol, demi 8vo, with 24 plates engraved by F. J. Lees. It contains a full account of the English eurrent gold coins attributed to the first half of the seventh century. A careful examination of these gold coins will throw much light on the proper appropriation of the silver, especially on the coinages of Henry V. and VI., and will also afford much information acceptable to collectors, even though their cabinets may not contain a great number of gold coins. Roxburghe, 1883. 8.00
- 98 **Lenormant, F.** Monnaies et medailles. Avec 151 fig. 8vo, paper. Paris, 1883. 1.00
- 99 **Nobac, F.** Munz-Maass und Gewichtsbuch. (Coin-measure and weight book.) 2d edition, 1234 pages, 8vo, cloth; in German. Leipzig, 1879. 7.50

- 100 **Poole, S. L. and R. S.** Catalogue of the Oriental coins in the British Museum. This series, like that of the Greek coins, is made up of unrelated parts, seven in number, each complete in itself as to its subject. Vol. I. Coins of the Eastern Khaleefehs, 8 plates, 8vo, cloth (*out of print*). London, 1875.
- 101 ——— Vol. II. Coins of the Mohanimedan Dynasties. Classes III-X, plates representing nearly 100 figures, 8vo, cloth. London, 1876. 4.00

Bound volume collated Oct 10, 1912

3 8060 00047 6259

8 pieces

1882-

1886

The first is itself
 composed of 2 separate
 catalogues, rather posed
 continuously. Some
 day they must be all
catalogued individually.

Dealer's Catalog.

Law, Lyman H.
